October 8-14  
October 15-21

Release:  
November 2, 1973  
3:00 P.M. ET

Washington, November 2 -- This is the first report of outstanding export sales released by the Crop Reporting Board of the U. S. Department of Agriculture (USDA). This initial Export Report covers the weeks of October 8-14 and October 15-21. Subsequent reports will be issued each Friday at 3:00 p.m., ET, containing export data for one week and cumulative actual export data for the marketing year to date.

The data represent a tabulation of all reports of export sales submitted to USDA's Statistical Reporting Service (SRS) as required by Section 812 of the Agriculture and Consumer Protection Act of 1973. U. S. exporters of wheat and wheat flour, feed grains, oilseeds, rice, cotton and products thereof, are required to report weekly to SRS.

The reports contain no analytical appraisal of the data presented. It should be recognized that some export sales contracts reported may not materialize in actual exports because of future adjustments in contracts. The basic data on export sales outstanding will be supplemented with actual exports made to date for some commodities by including a reprint of the table, "U. S. Grains: Exports and Inspections for Export," published in the Grain Market News Weekly Summary and Statistics.

Reports of export sales that show ultimate or intermediate destinations are grouped into 11 geographic areas of the world and shown by marketing year. Outstanding export sales with destinations unknown are shown below the total reported by geographic destinations. This report also shows two other categories of export sales or activity: (1) totals of optional origin sales by marketing year, and (2) total exports outstanding (not yet sold) for exporter's own account.

This initial report also shows a listing of countries that comprise the various geographic areas and specifies beginning and ending dates of marketing years for the commodities covered by the report. The listing of countries by geographic areas will be repeated periodically for the benefit of users.
